

## GRANDE CHEESE:

## COVID-19 RESPONSE & RESOURCES

We recognize that with the constantly changing COVID-19 situation, this is an unprecedented time for everyone — and especially for you, as an independent restaurant operator. It is a time that, for many, is filled with uncertainty. However, we also know that we are part of a strong, resilient group.

We are navigating the volatility by staying true to the Mission and Culture of our organization.

- **Committed to Quality:** We are committed to providing all Grande operators with a reliable, safe supply of our high quality cheeses. We know that you rely on our products to provide consistent, high quality food to your customers, and we are navigating through this together. Continued operations of all facilities to meet demand is the top operational priority for all Grande Associates.
- **Committed to Supply:** We are working very closely with our producers and customers to understand any potential implications on supply and demand, ensuring that we are producing cheese to meet all operator needs without disruption across the supply chain.
- **Committed to Health:** The health and well-being of Grande Associates continues to be a top priority. We have put several policies in place, including, restricting visitor access to all Grande facilities, increased hygiene practices that are above and beyond those currently recommended by the CDC and additional precautionary measures.

This is our time to pull together as an industry and give back to the communities that have helped get us where we are today. Who better equipped to supply consumers with quality, consistent delivery and take-out food than an independent pizzeria? We will continue to update this page as new information and ideas become available. Also, your Grande Sales Associate is available to assist and support as needed.
